The Best Is Hard To Find

Often Denton School is put down and ridiculed because of their "smallness," but anyone acquainted with us at Denton would agree that it is hard to find a school quite like it, anywhere.

Denton is a uinque school that is made up of various qualities unlike any other. Here, each student feels like a special person. We all know each other by name, not by rank.

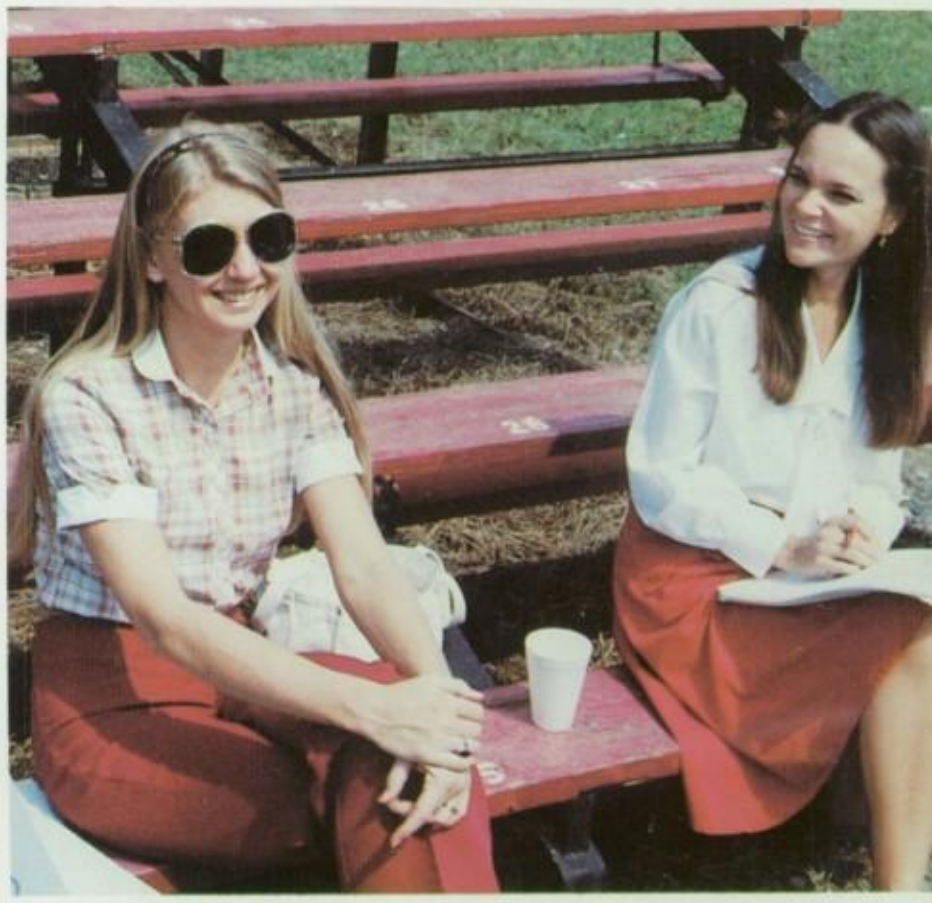
Though our school doesn't consist of a large number of students, at pep rallies most people would think so. The students back their reams with SPIRIT better than larger schools because of their enthusiasm, not their quantity.

Denton has a warm atmosphere and each student has a feeling of belonging. As you walk down the halls of the school, whether you are a student or a teacher, you are highly unlikely to receive anything less than a smile from at least one face that is passed and more than likely you will exchange a cheerful greeting or even stop to chat a word or two.

Thanks to our small school, students can easily speak to the faculty and even seek close relationships with them. Working with small numbers give teachers the opportunity to spend time and give individual attention to students.

Maybe the best is hard to find, but Denton School seems to have found the "BEST" within itself.

Sneaking Around, yes, you guessed it! Andrea Wood and Lisa Bisher a
something they are not suppose to do . . . again.



Sunbathing? No, nor quite, Senior advisors, Mrs. Smith and M
Domecq at the football field advising the Senior class skit practice,

Team work strikes again Sharon Varner and Teesha Hannegraf show the true meaning of team work, friendship and exhaustion in the library, while munching out after a volleyball game.

Spirit never fails Coach Howard Hayes sharing his spirited words with the student body, as the football team cheers him on during a pep rally.

Aren't they a little old for "Hide and Go Seek"? Tammy White and Amy Little THINK they can't be seen.

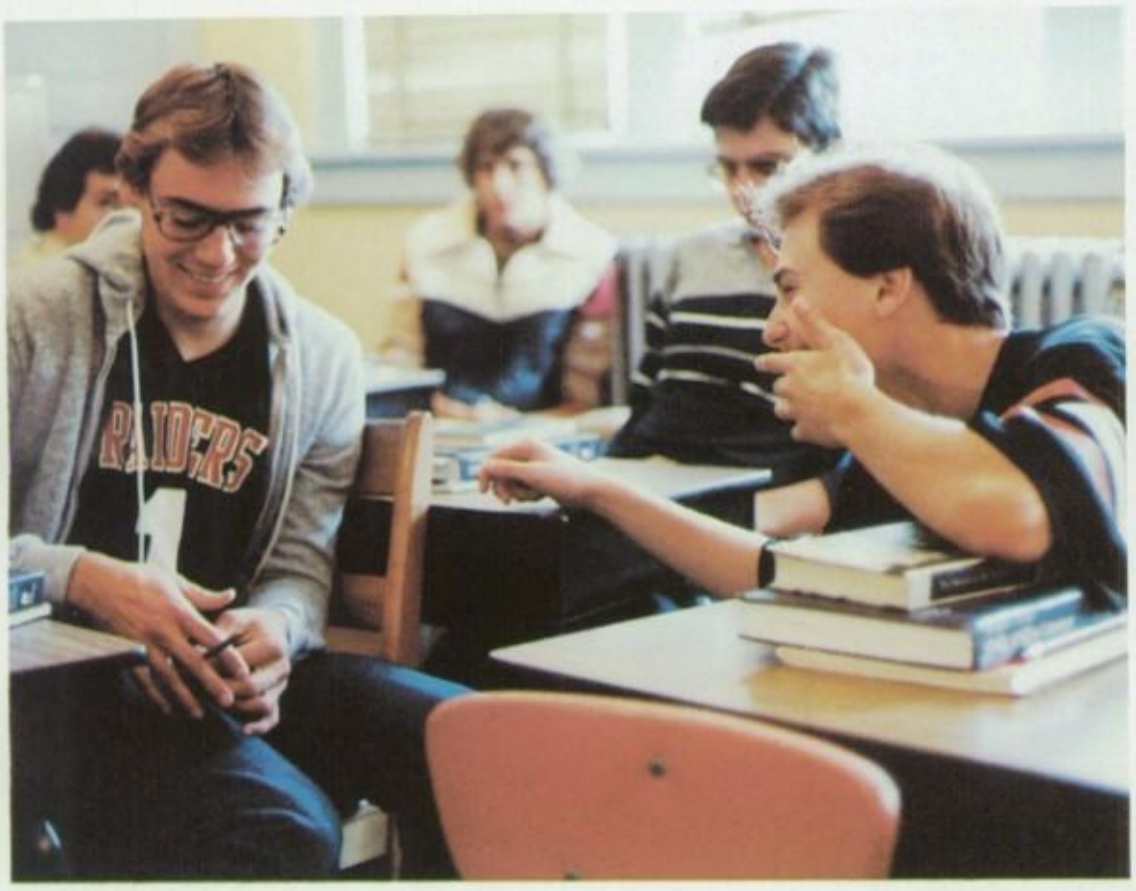
Joining The Crowd

Trying To Fit In



Discussing their game plan instead of their English, Tracey Owens and Craig Woods pass the time at the end of class.

He's done it again! Tommy Lineberry harassess another sub-poor Owens.

Showing his pearly whites during the Homecoming Pep Rally is Marty Owens, while members of the football team look on.

Of course we'll win. The junior and sophomore girls plot their stragegy the powder puff game.

Today it seems like everyone wants to belong, be a part of a team, a group, club, or even just to have one close friend. The students of Denton were no different. Some people did almost anything to fit in with a crowd. Students were trying out for sports, joining new clubs through initiation, assisting in club projects, or just being there to lend a hand. Club and class meetings were held once a month, allowing students to be a part and participate in their club and discuss class plans. Even little kids that go to Denton wanted to belong, on the playground, lunchroom, classroom or wherever, in groups.

Be it sharing a joke in class, taking to a friend, or just getting together with a few buddies, having fun was the main goal.

tch out! Study escaping. Escapees from study hall in the dia center plan their next caper.

y, we're great! That seems to be what Gerald Miller, Tommie o, Jimmy Russell, Scott Taylor and Tyron Smith are saying as y prepare for the senior homecoming skit.

unexpected visitor at the senior skit meeting, Tyron Smith pares to help his class (By the way, Tyron is the one in the sk).

Should I tell the Truth? Judy Markham and Rhonda Horne attempt to fill out Judy's application for the Miss Denton pageant.

Attempting to open her ice cream, we find Lisa Ferree.

As a part of the freshman class skit, Michelle Watkins, Jeannie McCullom, Jennifer Woods, Brenda Snider, Lori Little, Rene Owens and Sarah Barnes sang and cheered.

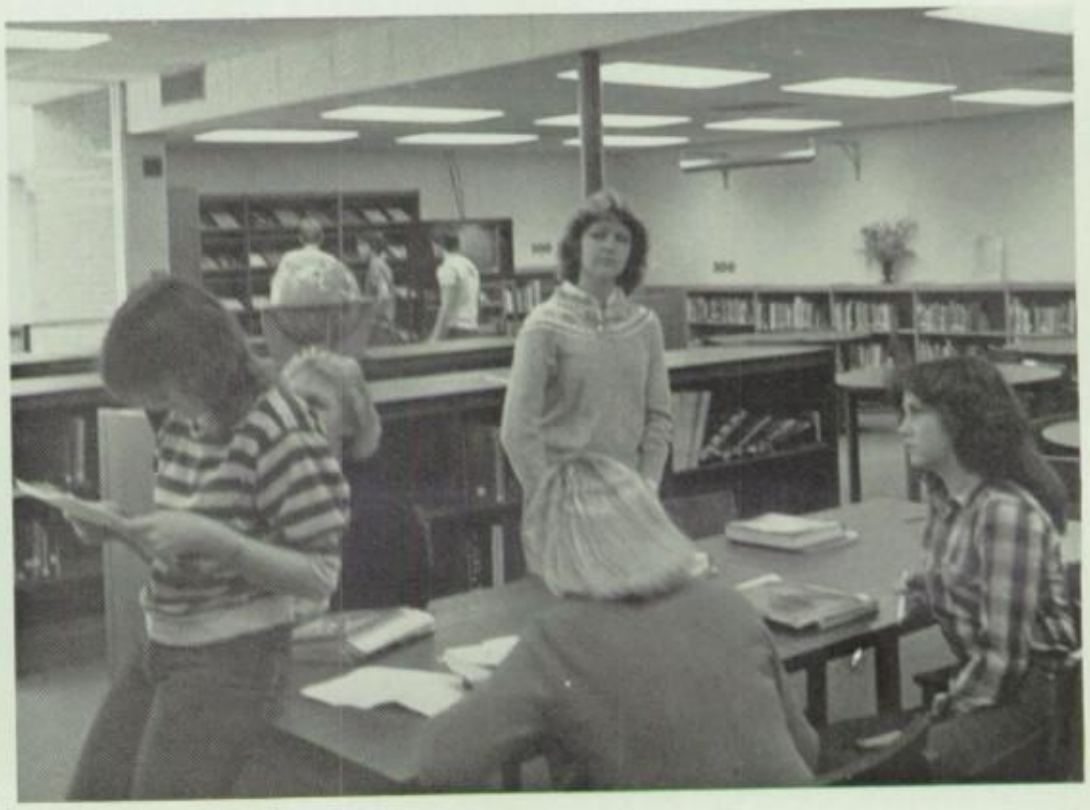
During lunch we have kids in the lunchroom and com- n's area as well. After school, some kids hang around the hall- ways or in the offices, as well as some of the rooms.

Some students spend their time, and sometimes money, in arcades or at restaurants. No matter where they go, they always like to have some fun.



After school J.V. cheerleaders Candy Bean and Brenda Snider wait around the halls until practice starts.

Smile! – Posing are Katrina Hoover, Anna Stubbs, Rebecca Saleeby, Millie Rush, and Renee Owens, while Allen Absher ends up holding the door.

Spirit Week, a tradition of DHS was held during the week of ptember 27th through October 1st, the week of the homecoming me. Raider pride was evident everywhere.

Everyone has it in them, that special feeling when this time comes ch year. That scarey feeling, "Everyone's watching me," when u're on the gym floor performing in your class skit. That Raider ide when your class banner passes by in the parade. Anticipation, aiting for Friday night's football game.

Various activities took place all during the week. Monday stood as Bum Day; Tuesday was Backwards Day; Wednesday was T-Shirt Day; Thursday was Spark the Spartans Day; and Thursday night was the Powder Puff Game and Bonfire. Senior and Freshman girls completed against the winning Junior and Sophomore girls. Friday was Red and White Day, followed by the game Friday night against Central Davidson.

Will They Win? Yes, the Juniors perform the winning skit at the homecoming Pep rally.

Let's go 4-wheeling with the Raiders — the football team leads the big homecoming parade which occurs during school this year.

lomecoming 1982 — With cheering crowds and determined minds, ther homecoming passes by without the students even knowing it already come and gone.

Even though Denton lost, the team played a hard, strong willed game against the bigger Central Davidson Spartans, score 35 to 12.

Everyone sets his own goals. Even though some of Denton's were not reached, they still had their heads up, and turned in the right direction.

what a feeling! Senior, Anita Parker, representing the Vica Club was crowned Homecoming Queen 1982.

Look at that smile! Sophomore, Rhonda Haneline was named Maid of Honor. Rhonda represented her class and was escourted by her stepfather, Gilbert Futrell.

People Who Keep It Together

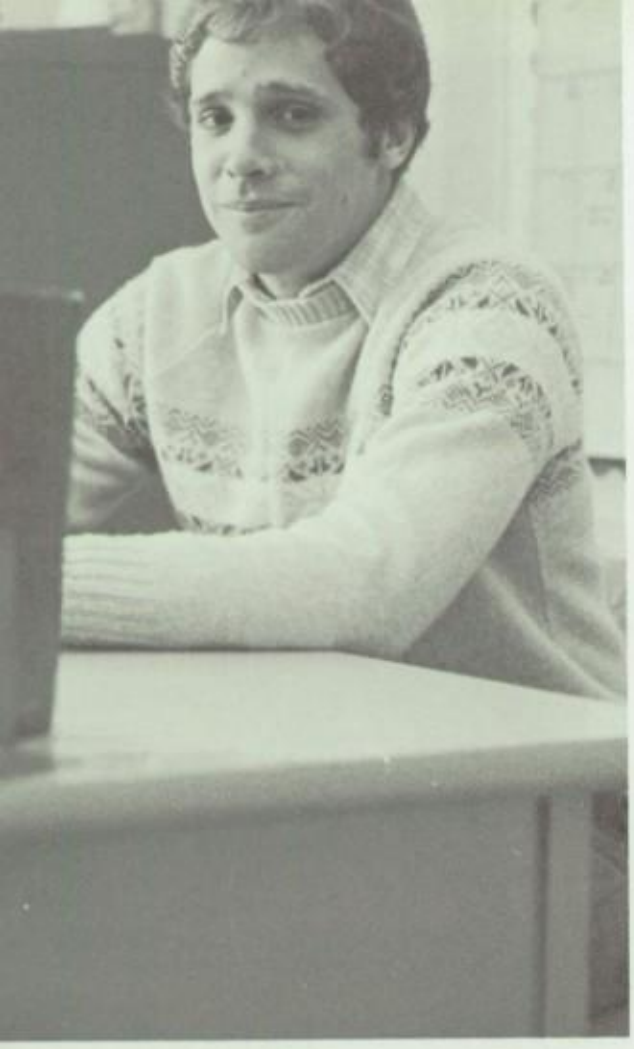
"What Is The Best Thing About Teaching At Denton High?"

"I could say that it's the friendly students and fine faculty, but for me the best thing about teaching at Denton is never having to search for a parking space. **Mrs. Shelia Allen,** Librarian, Yearbook

"... getting to know our students personally. Working with a small faculty and getting to know them well. With the addition of the computers in the business department, I have found that I have gotten closer to my students. **Mrs. Jane Black,** Business Education

"... classes are small. Get to know the students' needs better. And you can help meet their needs. **Mrs. Geraldine Gallimore,** Guidance and Media aide

"... the good relationship that can occur between students and teachers because of our size. We don't seem to have all the discipline problems that other schools are faced with. I like the closeness of the faculty. **Mrs. Glynis Domecq,** Spanish, English.



"The enjoyment that I get teaching the student that I am very close to. At Denton, the smallness counts cause I get to know everyone's ways good or bad. The staff is also well organized here. **Mr. Greg Fowler,** Math, English

"... The smallness of the school. The teacher gets to know the students." **Mr. Billy Grimmett, band, photography, math**

"The well behaved good students. And because of the small classes you get to know the students." **Mr. Ronald Kepley,** Agriculture

"We've got the greatest kids, a super attitude, hard workers, and they got a lot of pride in what they've got." **Mr. Howard Hayes,** P.E.

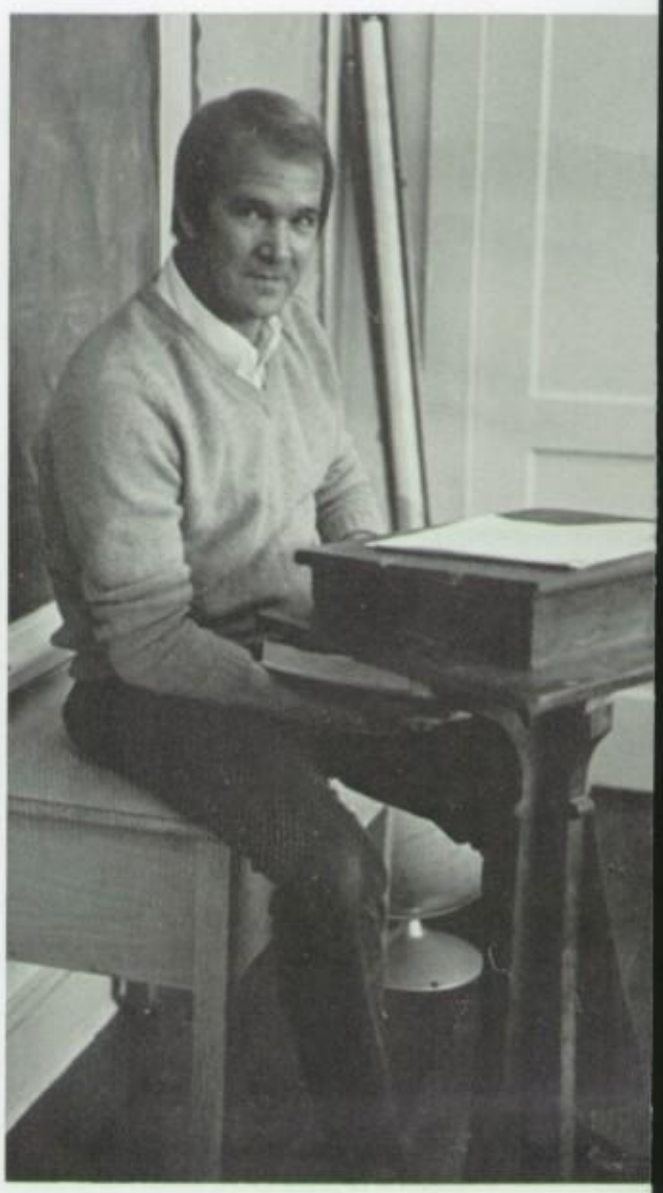
"Working at Denton could be a problem for me, since I have to drive 48 miles a day to teach school (and I'm not the only faculty member who lives far away) Instead, I count the time at school that I enjoy my classes as more important than the time on the road. Most of the people I know at Denton, faculty and students, I count as friends. Liking my job, therefore, is easy, for I'm doing something I love and spending each day with nice people." **Mrs. Donna Hurt,** Math

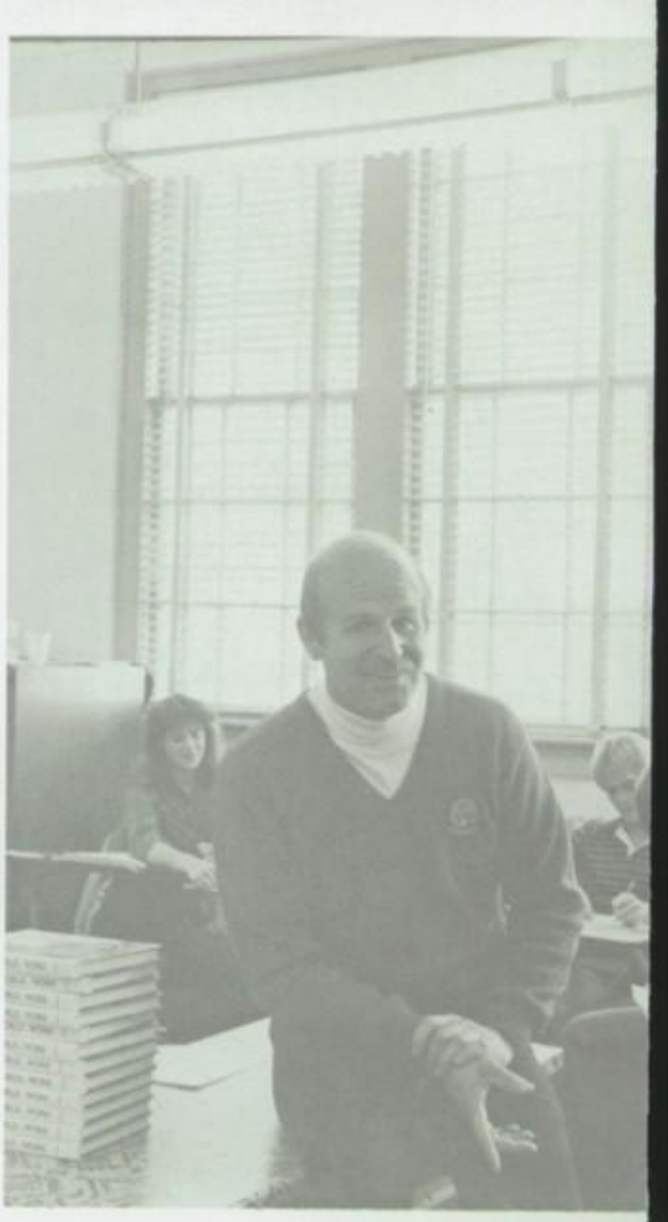
"Relationship with the students." **Mrs. Judy Koontz,** Home Economics

"Denton School is small enough that any student who wants to participate in some extracurricular activity may. Also, the teachers know all the students and many of their parents. **Mrs. Marie Lanier** Science.

"Smallness of the school and getting to know everyone. Cause they're willing to work and do what's asked of them. **Mrs. Dorcus Loflin,** Media and Remediation Aide

"Everyone can get involved in almost every activity we have here — teachers included. There's a closeness here that other schools simply do not have." **Mr. Wayne Miller,** Guidance Counselor





"Getting to know all the students and helping students find out what kind of work or job they need." **Mr. Marvin Sandifer,** I.C.T.

s no better or worse than teaching anywhere else." **Wayne Plaster,** History

"I enjoy teaching here because the size of this school makes it possible for students and teachers to know and understand each other. **Mrs. Juanita Smith,** English

"Knowing my way around, knowing I can't get lost." **Mrs. Anne Newber,** English

e to get to know everybody as people and not just as nts. Lasting relationships are easily formed — due to t-home small town setting." **Mrs. Rebeccah Ward,** urce

"The small student life." **Mr. Bill Wall,** Biology

"First of all, I like the warm friendly attitudes of the students, parents, and faculty. I admire the high degree of professionalism of the staff and the administration. This is a quality that is not always present, especially in small schools. I admire and appreciate the community effort to support their schools. I am greatful for the fact that everyone seems to appreciate what I do for the students. I enjoy Denton because the small number of students require fewer rules. Everyone seems to know what should be done and usually does it. "Denton is a school we can be proud of." Thank you for giving me the opportunity to say so." **Mr. J.E. Sink,** Driver's Education

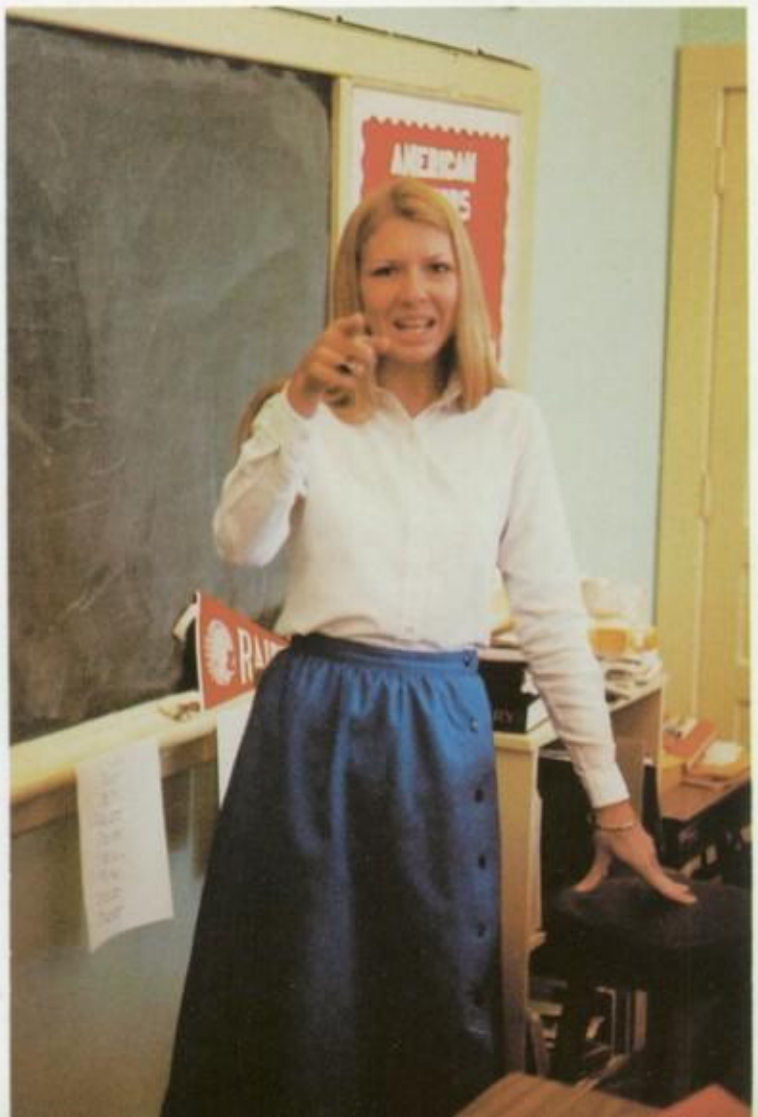
"Presenting The 1982 Phoenix To . . ."

The Seniors of 1983 wish to dedicate this edition of the hoenix to a teacher who came to Denton when we vere Freshmen and has taught most of us throughout ur high school years. Being in her class is more than just n educational experience. Students also receive her eelings of caring and understanding.

She doesn't mind going to a student's desk time after me during a class when the student can't seem to nderstand. She doesn't expect everyone to be equal, iving credit to those who try as well as to those who ucceed.

In addition to her understanding and great concern, he has a remarkable sense of humor. She jokes around class and sometimes gets so involved in laughing, she as to stop class to dry her tears.

For those of us who have been lucky enough to be in er class we'll always cherish the moments we have hared with this terrific lady — and in return, we, the eniors, dedicate the 1983 Phoenix to Mrs. Juanita Smith.



Mr. And Miss Red Raider

Being chosen as Mr. and Miss Red Raider is a great honor. This year the faculty chose Gerald Miller and Beth Poist because they felt their involvement in various school activities deserved some recognition.

Gerald served as President of Student Council his Senior year after having held offices his previous three years. He participated on the football and baseball team and was a bus driver.

Beth was President of FHA, inducted into the Beta Club during her Junior year and participated on the Basketball team three years of high school.

In A Class By Ourselves

Joe Raider, the typical Denton High student, has a very interesting day; for example, today Joe wakes up late because the night before, he and some of his friends went to see the movie **E.T.** at the **Lexington Cinema Four** and then went to **Putt-Putt Golf and Games.** Joe is in a big hurry so he starts his morning shower which always includes **Dial** soap and **Flex** shampoo. He then goes over to his **Panasonic** stereo and tunes in his favorite radio station, **Z-93.** They always play music by **John Cougar** and **Pat Benatar** or the group **Alabama.** The news is on now so he puts on his number one album, **Escape** by Journey.

After Joe gets out of the shower he puts on his **Levis** jeans and **Nike** shoes. Joe then leaves for school in his 1980 **Camaro.** He stops at a store on the way to pick up a **Seventeen** magazine for his girlfriend, which has articles on actors **Tom Selleck** and **Sally Fields,** his favorites. During his first class he opens a brand new pack of **Bubble Yum** which he chews in all his classes (except Mrs. Hurt's).

In the afternoon, Joe sits in his study ha because he didn't "cut the conversation" i the library. Joe was talking about the AC game last night in which the **UNC-Tarheel** played, when he was thrown out. While he sit in study hall, he looks outside where it is warm and sunny. This reminds him of **Myrtle Beach** lying out in the sun with his favorite suntan lotion, **Hawaiian Tropic, swimming** in the pool, or just hanging out at the **Pavillion.**

After school Joe heads to the fieldhouse where Coach Hayes tells him to "hit the weights." He doesn't stay long because he wants to go watch the end of **General Hospital.** After General Hospital goes off, Joe and his friends go to **Clyde's** where he orders a **ham and cheese sandwich.** He finds a quarter and then goes to the jukebox and plays his favorite song, **Truly** by Lionel Richie.

Later that night, Joe and his friends go out to eat at **Darryl's** but go home early to watch **Dynasty** on TV. Then its off to bed to get ready for another exciting day.

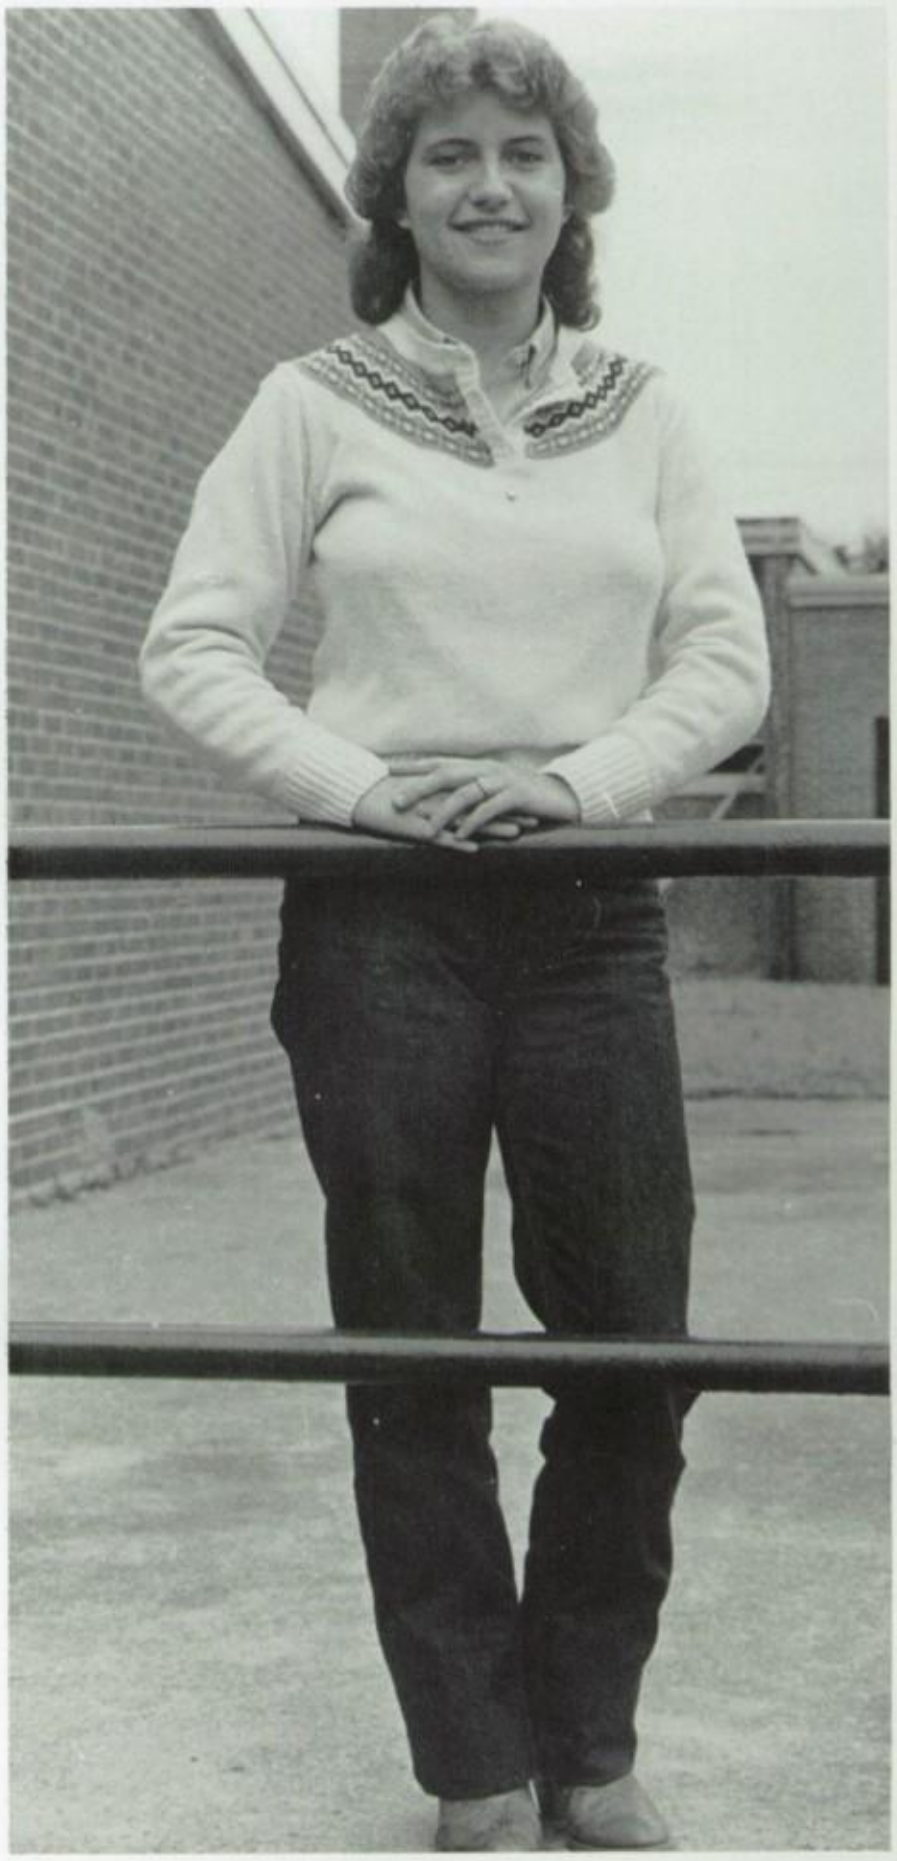
The Editor's Note . . .



Many times while working on this yearbook I thought and I'm sure the staff thought too, "Will this book ever be finished?" Well, here it is the last pages completed and another school year is coming to a close.

The Phoenix staff chose the theme, **The Best is Hard to Find** to help you realize that Denton is close to being the best because of its unique qualities no other school has. Our smallness enables us to be closer to many more people than if we had two hundred or more students graduating every year. Now, when our classes graduate, we have had the opportunity to know a little about each of our classmates and hopefully have had many special friendships with classmates, underclassmen and even the faculty.

As this year comes to a close, I hope that each graduate realizes how special our school is and is proud to have been a part of it. If you are not yet a graduate, my hope for you is to realize now, how special our school is and make the most of the years left at Denton. And for everyone, good luck in finding the best, always.

Wanna Michelle Bean
